12 January, 1959

Ann Arbor, Michigan

**Members of the W117L Committee:**

Mr. Ralph Clark  
Professor Jesse L. Greenstein  
Mr. Amron Katz  
Mr. Francis M. Kelly  
Mr. Arthur Charles Lundahl  
Mr. Robert H. Shatz  
Professor C. B. Tompkins  
Major Harold Wienberg

**Gentlemen:**

As you know, the next meeting of the WS117L Study Committee is on 3 and 4 February, at the Denver facility of Thompson-Ramo-Wooldridge Corporation. The agenda is as follows:

- 3 February      Review of the R-W program to date, with detailed discussion of some of the processes in connection with the computer and detailed question concerning the entire program.
- 4 February      Committee discussion of the R-W program and casual discussion of critical comments received on the last ~~better~~ report of the committee to General Schriever.

In going to the R-W facility, you may have your travel needs taken care of by the following procedure: send a clearance to Thompson-Ramo-Wooldridge Corporation, RDP Project Office, Attention Hugh Wright, P.O. Box 90501, Airport Station, Los Angeles 45, California.

You should, at the same time, make known to Mr. Wright any reservation needs which you have. R-W will be glad to help you in this matter.

Mr. Shatz will, of course, chair the meeting.

Best personal regards,

*Harry H. Goode*  
bw

Harry H. Goode, Chairman  
W117L Advisory Committee

*for Systems*

P. S. At this moment I have received all that is needed on the draft of the report to General Schriever except a letter from Mr. Katz, which he has assured me is on the way. The report should go out sometime next week.
